

## Relocation Service Coordination (RSC-TCM)

Relocation Service Coordination (RSC) is a Medical Assistance (MA) program that assists person's living in Nursing Facilities find housing in the community. It is a form of Targeted Case Management (TCM) that identifies a person's medical and social needs and works in collaboration with the individual and their care team to safely transition into their new home.

Exodus PCS coordinates with Minnesota counties and managed care organizations to help individuals gain access to medical services and personal supports to meet their needs in the community.

We create a Person-Centered Transition Plan to provide housing choices and ensure supports are in place at your new home!
